

911 Checklist

If your loved one is a danger to themselves or others, please dial 911

Hold this list in your hand when you dial 911 so you can follow the suggested guidelines. Give the dispatcher the following information:

- Your Name
- Address law enforcement should come to
- List any weapons that are present
- Name of your loved one
- Age
- Height and weight
- Clothing description
- Diagnosis
- Drug use (current or past)
- Medications (on or off)
- Prior violent behavior
- Past Psychosis
- Details about past delusions or hallucinations
- Triggers
- Things that have helped in the past

Keep in Mind: You are asking an unknown professional to come to your home to help you resolve a crisis. They will have NO information about the situation/individual unless you inform them and help them understand the situation.
